

6m x 12m Island

Proslide

Client

Proslide is an award-winning Canadian company that develops and designs water rides for water parks, theme parks and resorts around the world.

Client Need

A custom rental exhibit with the ability to expand into a larger island, as well as accommodate multiple graphic images showing the company's portfolio of completed projects.

Solution

Nomadic Rentals, together with St. Joseph Exhibits, produced a scalable custom rental solution—a 6m x 12m island used at the Annual World Waterpark Association Symposium and Trade Show in Las Vegas. It expanded to a 6m x 21m environment for the International Association of Amusement Parks and Attractions show in Orlando.

Both exhibits featured graphic images of parks and LCD monitors provided additional audiovisual impact to the displays.

"Nomadic and St. Joseph Exhibits worked with us to give us everything we wanted in the display and kept our budget in mind. The solution they came up with, exceeded my expectations and was very effective in promoting our products at both US shows."

Tara Casey,
Director of Marketing, ProSlide Technology Inc.
